***NCHIP – A Learning & “Implementation” Collaborative
Maryland State Conference
May 8, 2013***

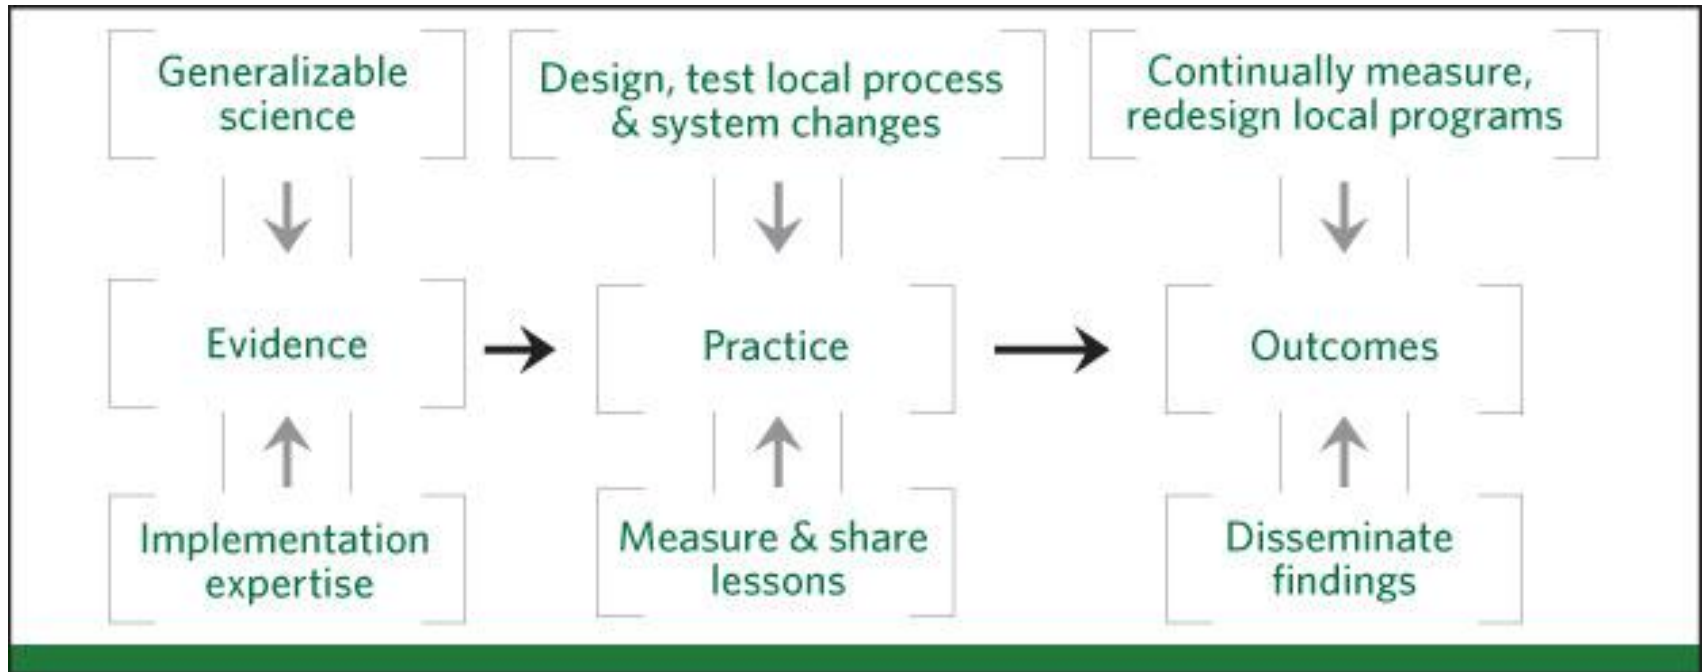

Using an Improvement Model for Implementation

- NCHIP's evolving structure
- Improvement model ingredients
- Implementation examples
- Lessons learned

NCHIP Organization

Putting Evidence into Practice & Measuring

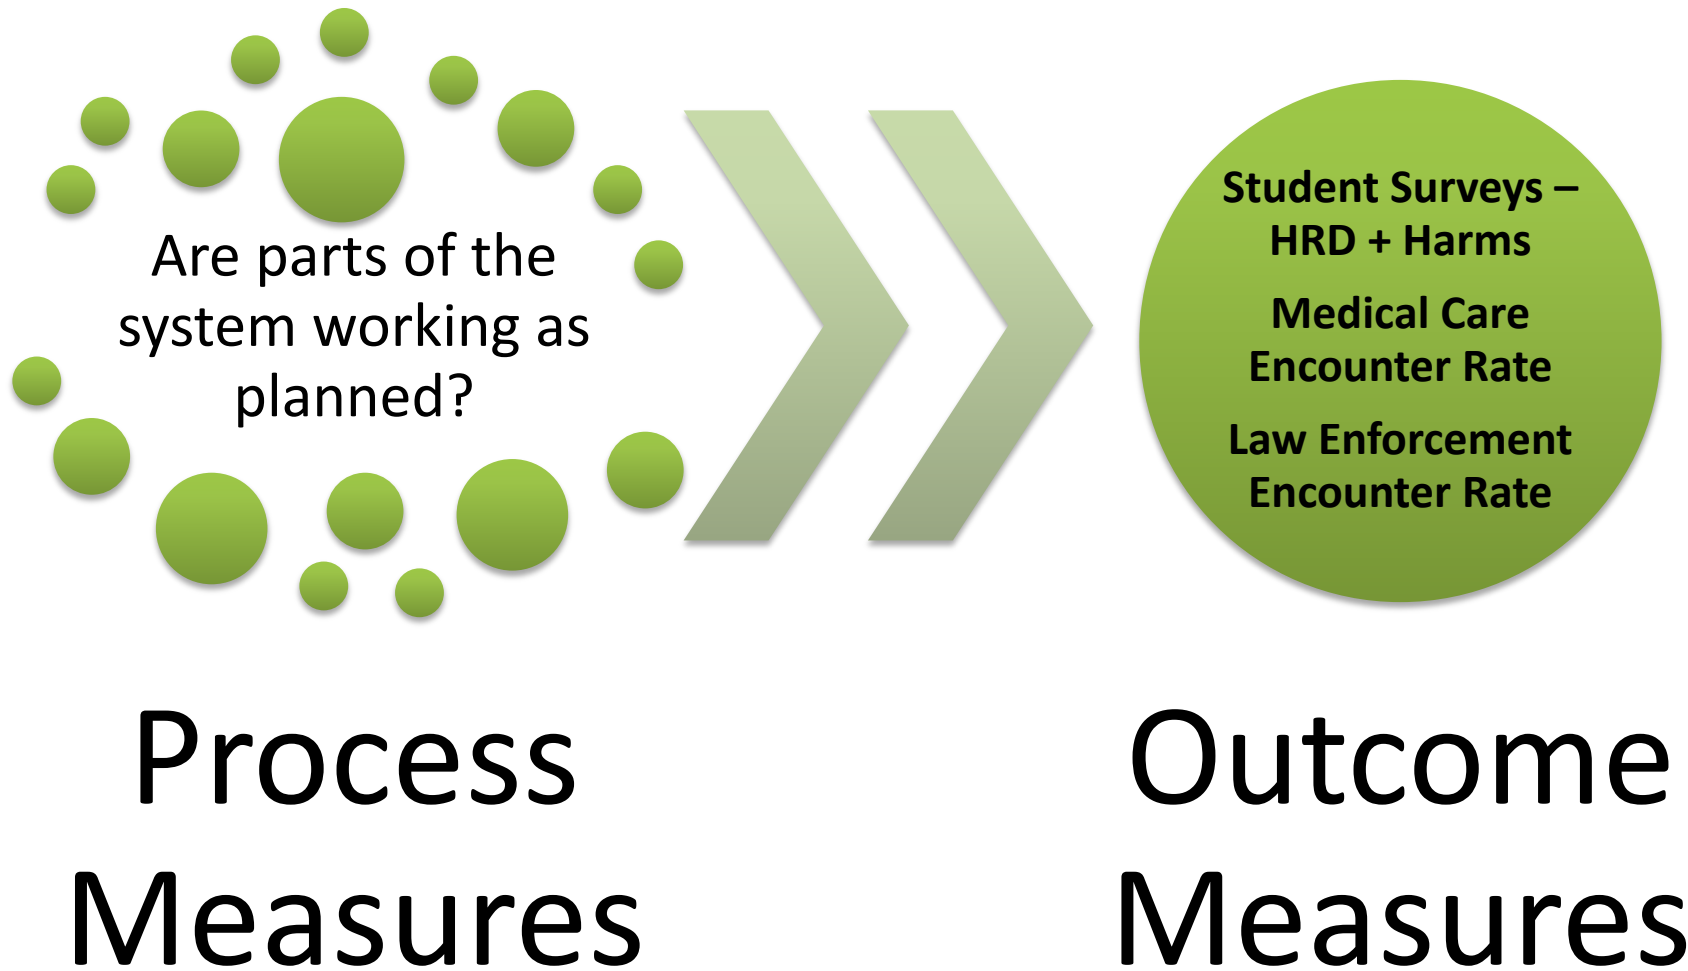

Ingredient #1 - Campus Improvement Team

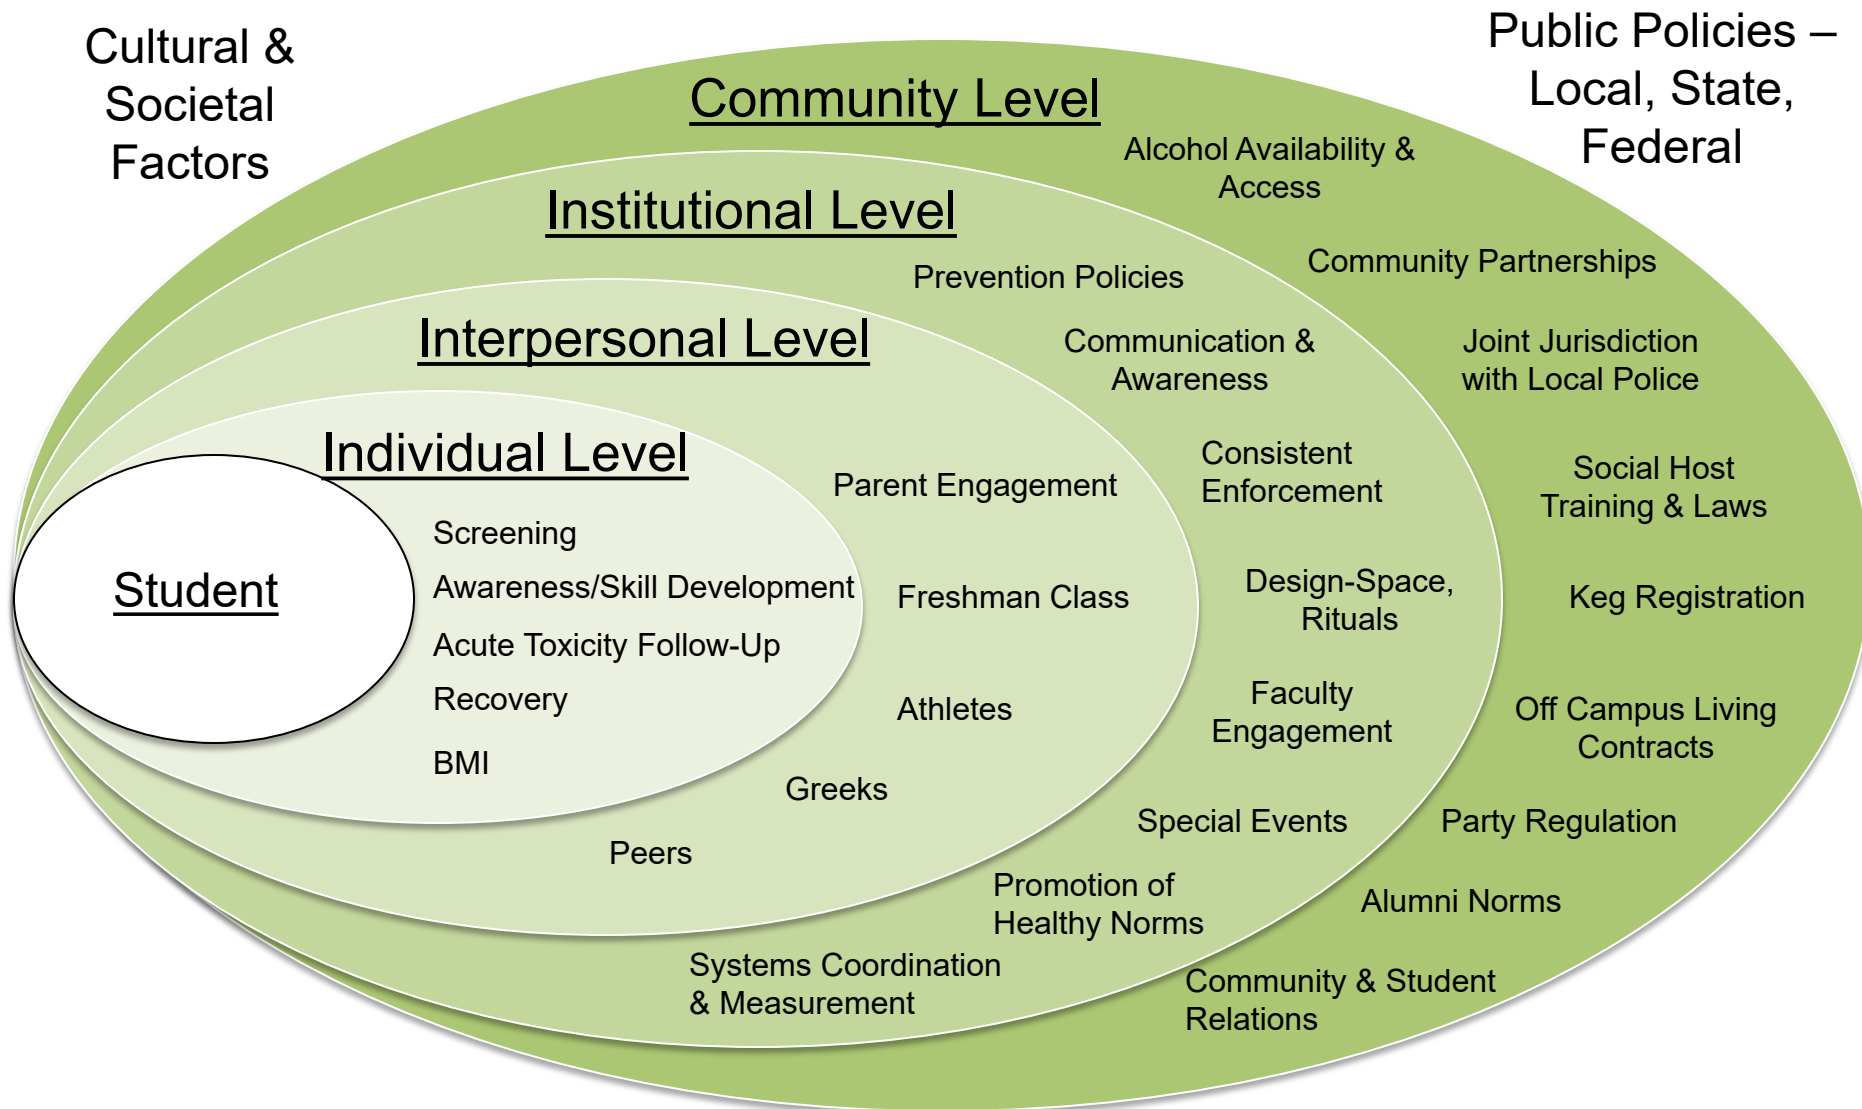

Multi-Disciplinary Team Composition

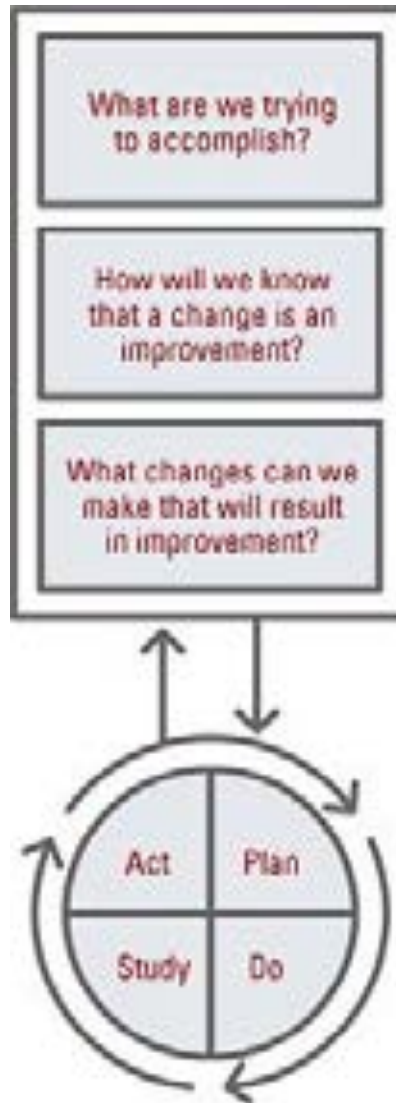

Ingredient #2 – Measures: Outcome + Process

Ingredient #3 – Most Effective Change Ideas

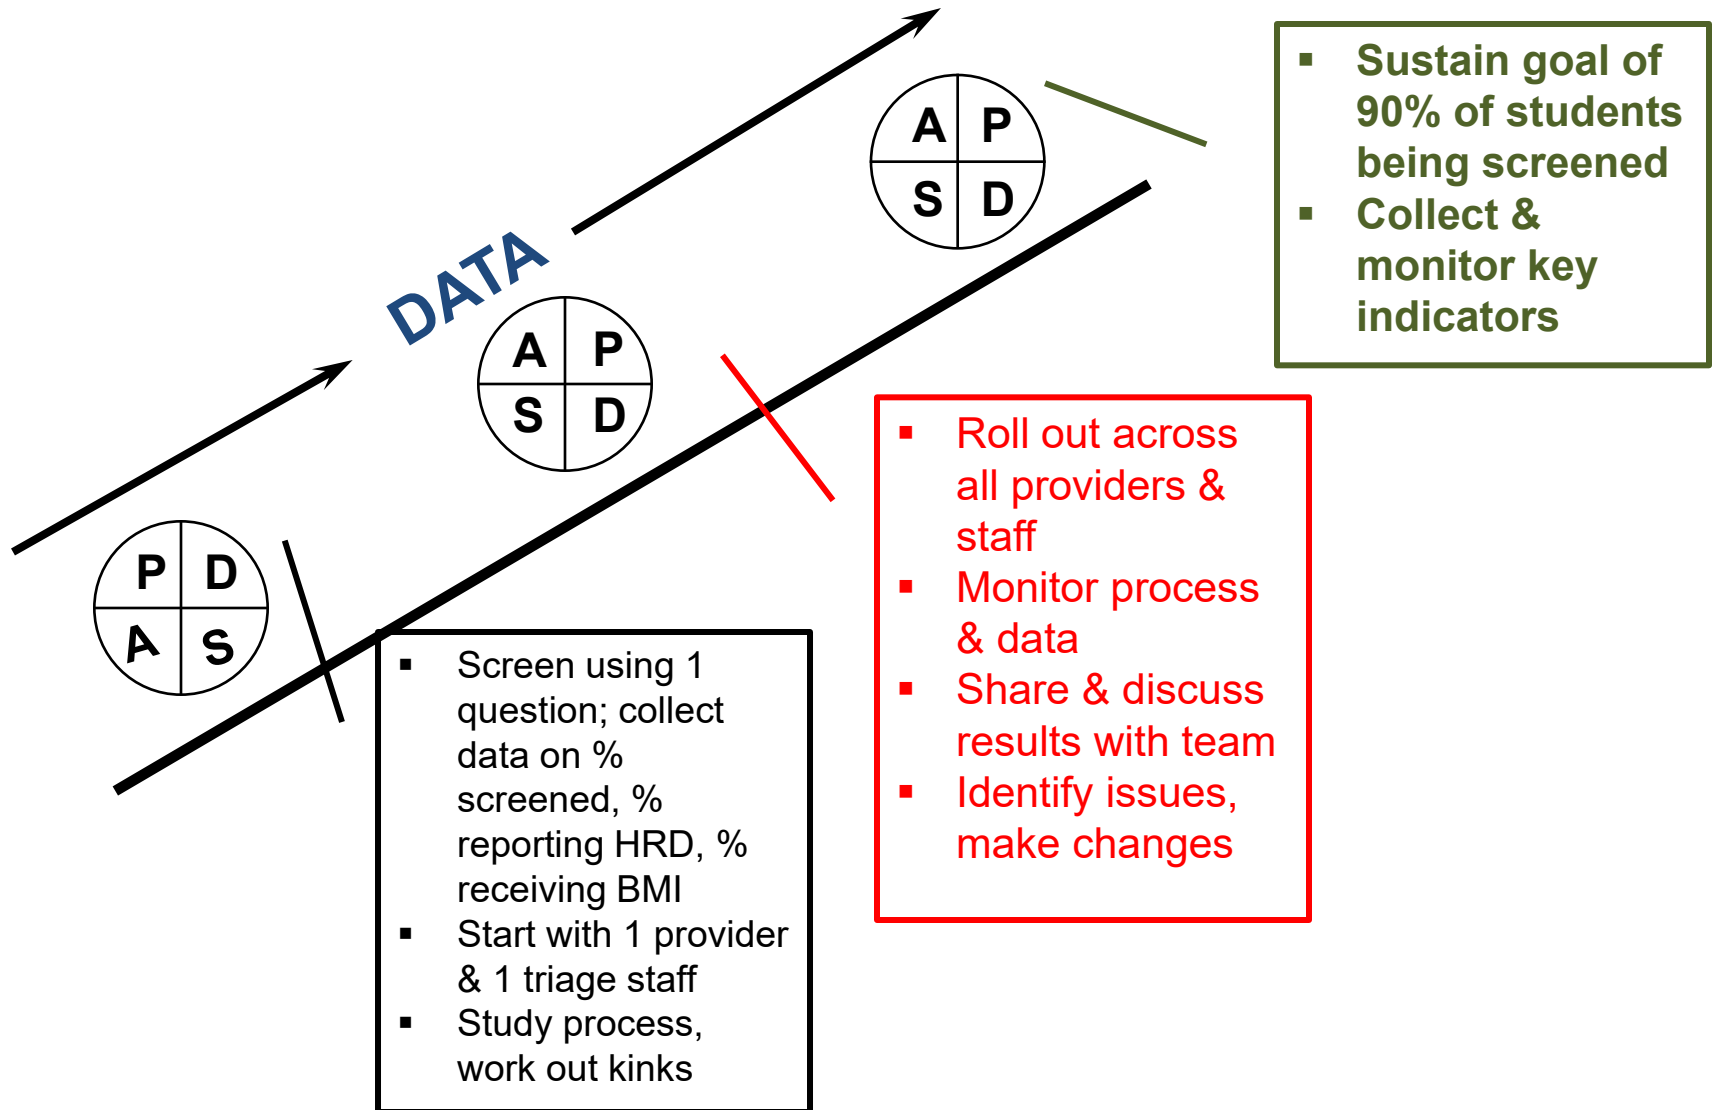

Ingredient #4 – Model for Testing & Implementing*

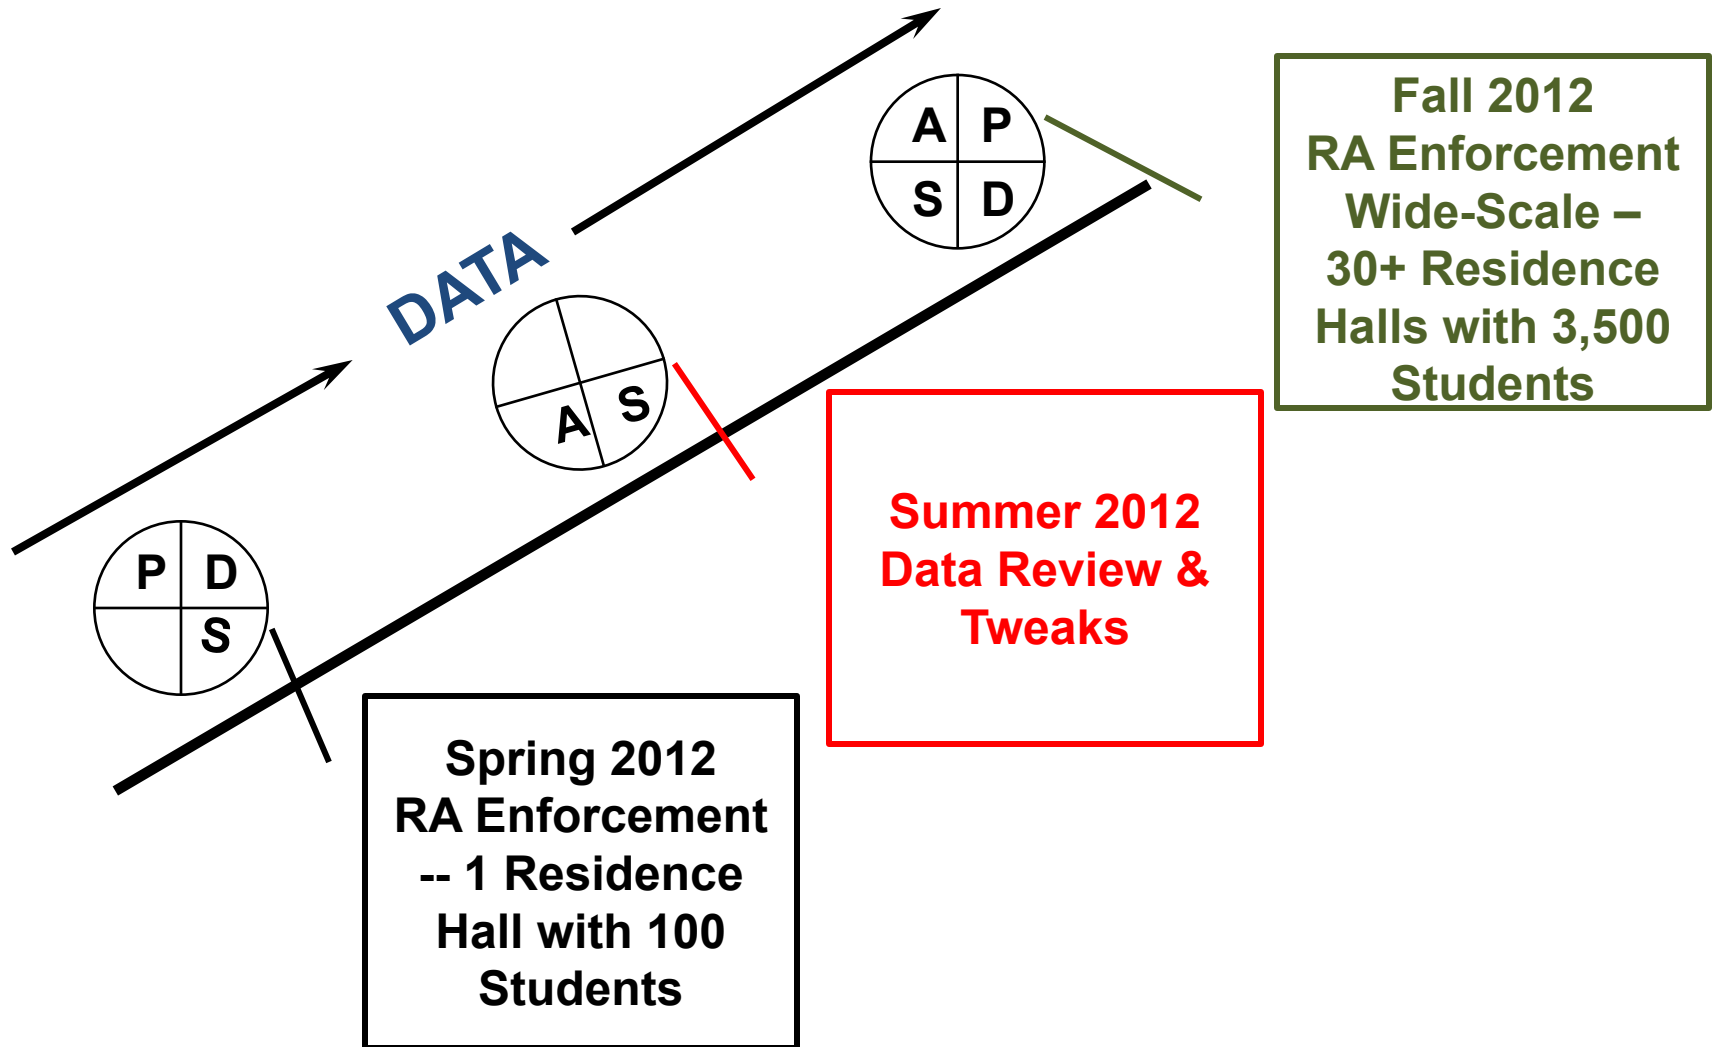

PDSA Ramp

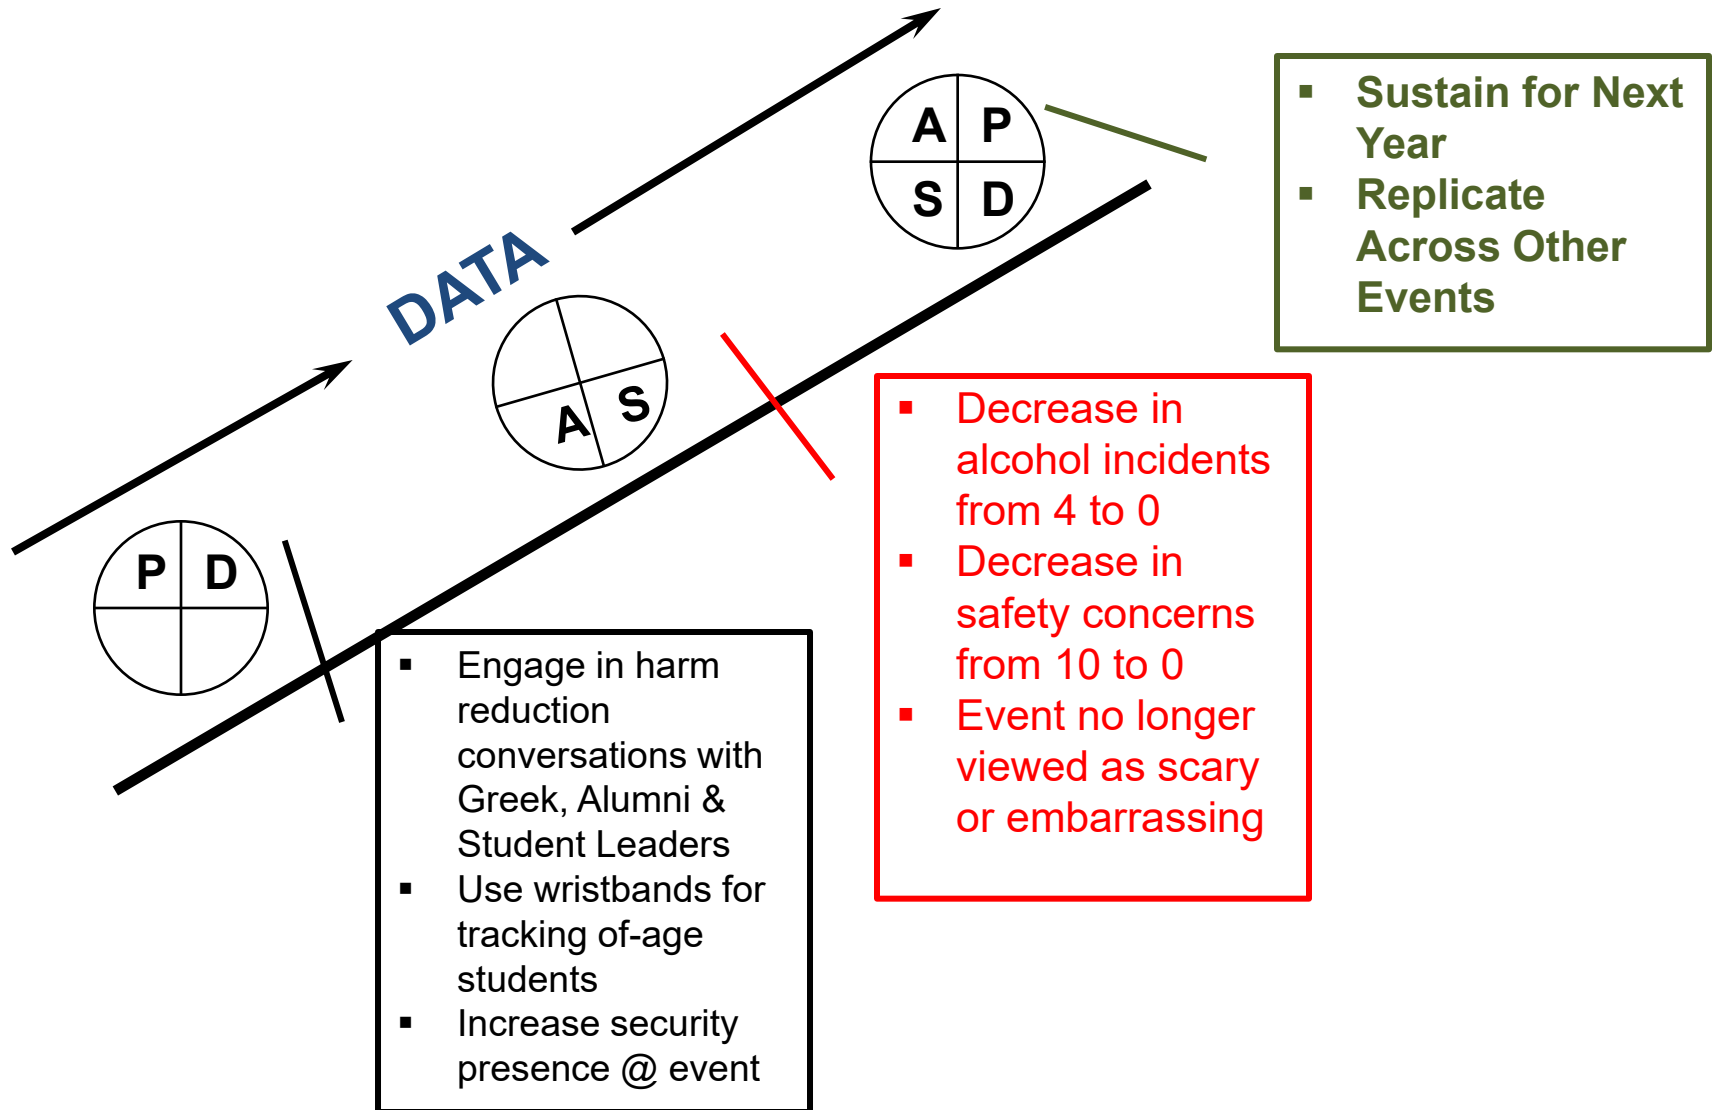

PDSA – Screening in Student Health

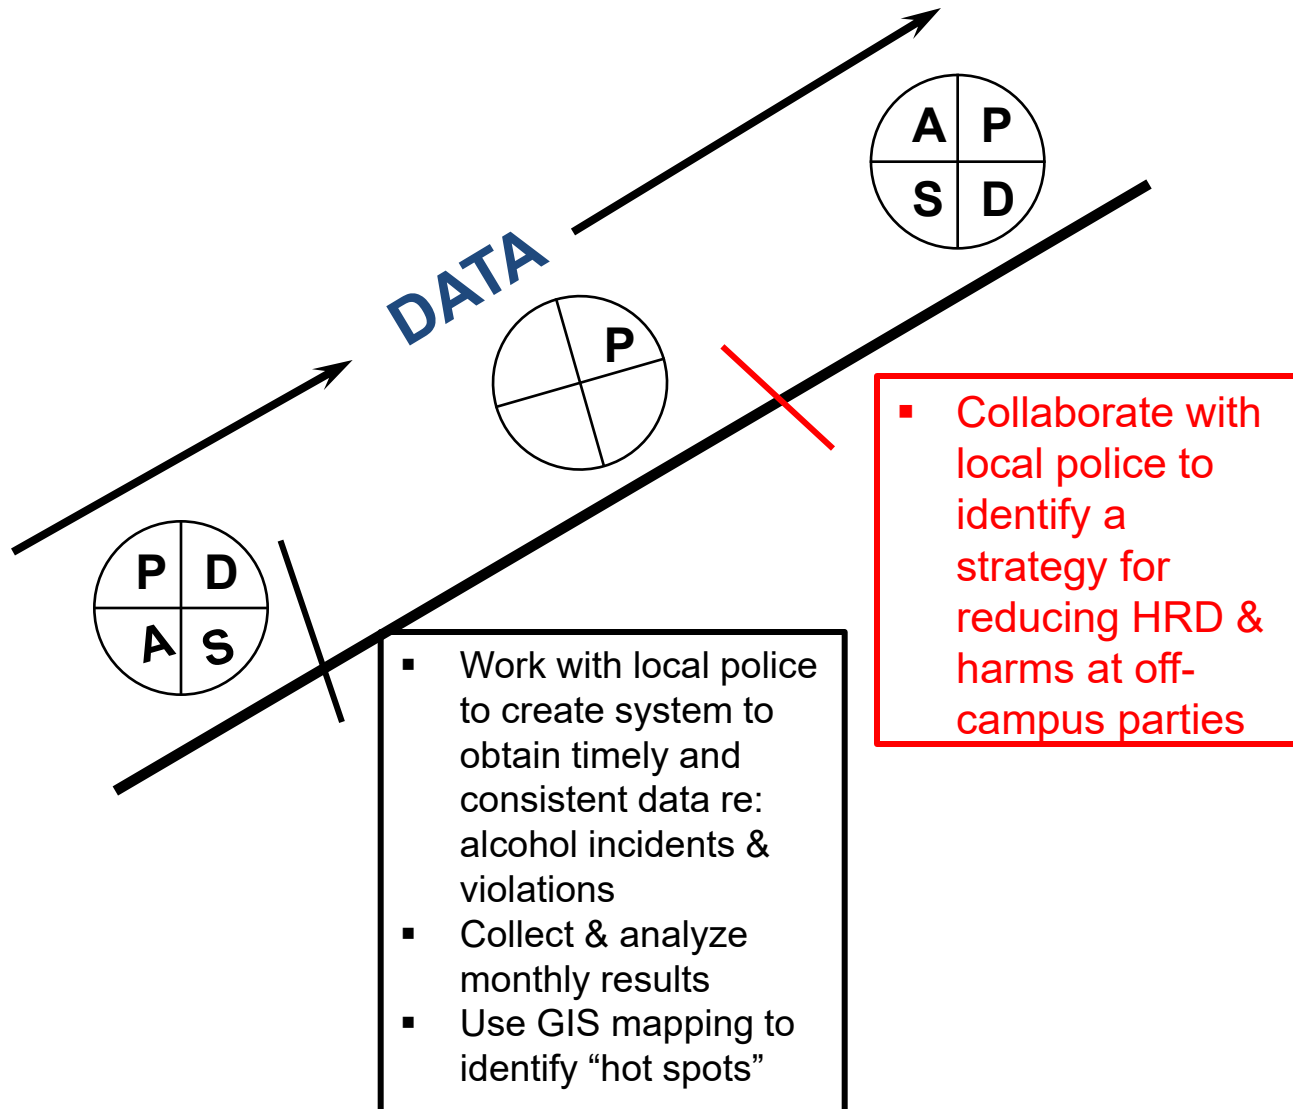

PDSA – Addressing Pre-gaming in the Res Halls

PDSA – Lowering Harms at a Special Event

PDSA – Collaborating with Local Police

An Institution's High-Risk Drinking Rate

SYSTEM DASHBOARD

AIM 1. REDUCE HIGH RISK DRINKING AND HARMS ASSOCIATED WITH DRINKING

(a) Decrease the binge drinking rate by 10% every year for the next three years

(b) Decrease the rate of self-reported harms, both frequency and severity and (c) Decrease the rate of harms to others, both frequency and severity.

Sample University Aim Statements

- Reduce high risk drinking and harms associated with drinking:
 - Decrease the binge drinking rate by 10% every year for the next three years,
 - Decrease the rate of self-reported harms, both frequency and severity,
 - Decrease the rate of harms to others, both frequency and severity.
- Increase positive behaviors associated with alcohol:
 - Increase the number and frequency of self-protective behaviors,
 - Increase the number and frequency of helping behaviors toward others
- Increase participation in timely and appropriate interventions among students who have been involved in an alcohol related incident.

AIM 1. REDUCE HIGH RISK DRINKING AND HARMS ASSOCIATED WITH DRINKING

(b) Decrease the rate of self-reported harms, both frequency and severity and (c) Decrease the rate of harms to others, both frequency and severity.

AIM 2. INCREASE POSITIVE BEHAVIORS ASSOCIATED WITH ALCOHOL

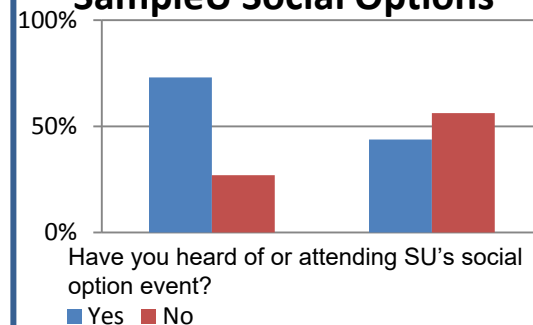

(a) Increase the number and frequency of self-protective behaviors

(b) Increase the number and frequency of self-protective behaviors

SampleU Social Options

Implementation Lessons Learned

Freedom to try things by starting small – “PDSA” a verb

Importance of data to inform efforts

Sharing affords local & collaborative wide learning & efficiency

Understanding that collective efforts are part of a complex, inter-related system

Not a one size fits all – multiple models needed
